The "deceived" world grieves for its lost leader. But the plot for human extinction still continues! A mysterious virus ravages people around the world... Who will be able to stop this plan?!

Kanna begins a desperate drive to unravel the plan behind the destruction. It is a mission to infiltrate the virtual attraction, a re-creation of Friend's mind...

2014. Kanna, now 17 years old, has come forth to continue Kenji's fight. She gathers together Kenji's old friends and grows ever closer to discovering Friend's identity. However, Friend is felled by a bullet from the gun of Dr. Yamane, a disgruntled ex-member of Friend's closest circle.

Finally, the Bloody New Year's Eve of 2000. Having built himself into the savior of all humanity, "Friend" is now worshipped all over the globe, and Kanna has died disgraced and reviled as a terrorist.

In 1997, while taking care of his missing sister Kiriko's daughter Kanna, Kenji notices several grisly incidents in his midst. Acts of terrorism... a mysterious man known as "Friend" and the evil he leads... By the time he realized that this was exactly what was written in the "Book of Prophecy," Kenji was already framed as the leader of the terrorists trying to kill off all humankind!

The beginning of 1970. Kenji and his friends create a secret base in an empty field, and dream of the 21st century to come. A story of the evil group that plans to destroy the world, and the superheroes who arise to stop them... They called this silly little story the "Book of Prophecy."
